TO THE MEMBERS OF THE BOARD OF TRUSTEES AND RESIDENTS OF SAN MATEO COUNTY:

State law requires special districts to annually publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive financial statements of the San Mateo County Mosquito and Vector Control District (District) for the fiscal year ended June 30, 2021.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse; and to compile sufficient and reliable information for the preparation of the District's financial statements in conformity with GAAP. The cost of internal controls should not outweigh their benefits. Therefore, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than, absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Badawi & Associates, Certified Public Accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District, for the fiscal year ended June 30, 2021, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements, for the fiscal year ended June 30, 2021, were fairly presented, in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

District Description

San Mateo County Mosquito and Vector Control District is an independent special district formed by the residents of San Mateo County in 1916 to control mosquitoes and protect the health and comfort of local residents. The District currently encompasses all 455 square miles of San Mateo County. It covers most of the Peninsula south of San Francisco, bordered on the east by San Francisco Bay and on the west by the Pacific Ocean. The area enjoys a mild, Mediterranean climate ranging in temperature from an average low of 42 degrees F in winter, to an average high of 80 degrees F in summer. Average annual rainfall is 23 inches, most of which is received between November and May. Approximately 760,000 people live within the District's boundaries. Services provided by the District include mosquito control, yellowjacket and wasp nest removal, municipal rat control, surveillance for vector-borne diseases, and advice to property owners on issues related to vectors. In FY 20-21, the District has an annual budget of approximately \$6.0 million. It is supported by a Special Mosquito Control parcel tax and portion of ad valorem taxes in the oldest portion of the District, and a benefit assessment in the North and West Assessment area (Figure 1).

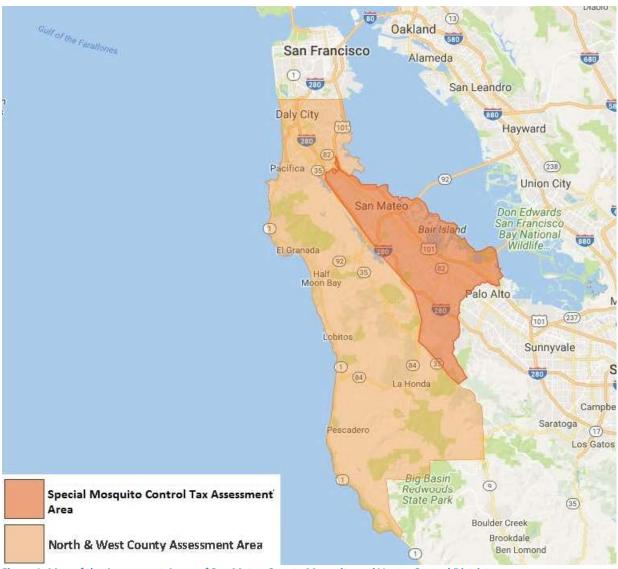

Figure 1: Map of the Assessment Areas of San Mateo County Mosquito and Vector Control District.

The District is governed by a 21-member Board of Trustees, consisting of one representative from each city in the county and one representing the county at large. The Board of Trustees meet 10 times a year and is responsible for overseeing the District's finances, setting policy, and supervising the District Manager.

Staff positions include 23 permanent and between 10 and 13 seasonal staff. The permanent staff includes a District Manager; a Field Operations Director; Finance Director; Laboratory; Information and Technology Director and a Public Health Education & Outreach Director; nine field staff; and support staff consisting of three finance staff, five laboratory positions.

History

San Mateo County Mosquito and Vector Control District was formed in 1916, following passage of enabling legislation, the Mosquito Abatement Act of California (California Health and Safety Code Section 2000-2093. It is one of the oldest vector control Districts in California. The original agency, Three Cities Mosquito Abatement District, was formed in 1916 to control mosquitoes in San Mateo, Burlingame, and Hillsborough using an integrated mosquito management program developed by entomologists from the University of California. In 1953, the Three Cities Mosquito Abatement District and the Pulgas Mosquito Abatement District merged to form the San Mateo County Mosquito Abatement District, which covered the area from Burlingame to the southern border of the county, on the eastern side of the Coast Ranges from approximately Hwy 280 to San Francisco Bay. In 2003, the District annexed the cities of Brisbane, Colma, Daly City, South San Francisco, most parcels in San Bruno, and communities west of I-280 such as Año Nuevo, Half Moon Bay, El Granada, and Pacifica, and other unincorporated areas in San Mateo County generally located west of Interstate 280 (the "North and West County Assessment Areas" Figure 1). In 2007, the County Department of Environmental Health asked the District to take over responsibility for all vector control services that had formerly come under the County's purview. The District changed its name to the San Mateo County Mosquito and Vector Control District.

Program Description

San Mateo County Mosquito and Vector Control District uses integrated vector management to protect the public from disease, discomfort, and injury caused by mosquitos and other vectors. Integrated vector management is the coordinated use of information about pest population, biology, and the host environment, combined with best available control methods to prevent disease and discomfort using the most economical means, while minimizing possible impacts to people, property, and the environment. The District's program uses a variety of techniques to protect public health, including surveillance of vector populations and disease risk, public outreach and education, and physical, biological, and chemical control measures to reduce vector populations.

Funding

The District is supported primarily by property taxes. These revenues are from three sources: a portion of ad valorem taxes from properties in the original district, a Special Mosquito Control tax passed by voters in 1974, and a benefit assessment passed by voters in 2003. The ad valorem taxes and Special Mosquito

Control tax apply only to properties within the boundaries of the original district (outlined in dark orange on the map in Figure 1).

The properties added to the District in 2003 (the area in tan on the map above, called the North and West Assessment Areas) pay the benefit assessment. Ad valorem taxes are 0.000018505 cents per \$1.00 of property taxes. The Special Mosquito Control Tax is a flat \$3.74 per parcel, and does not allow for cost of living adjustments. The North and West Assessment Area is divided into two zones. Zone B includes rural mountainous parts of the District; Zone A encompasses the remaining densely populated portion of the annexed area.

In fiscal year 2020-21, there was no change from the prior year in the amount of Benefit Assessment levied \$18.68 or \$18.33 per Single Family Equivalent (SFE) in Zone A or B, respectively. This Benefit Assessment is subject to an annual adjustment tied to the Consumer Price Index (CPI) for the San Francisco Bay Area with a maximum annual adjustment of up to 3% plus any CPI adjustments for prior years that have not been levied. The District currently has an additional 23.18% additional CPI in reserve that it may apply in future years. In Fiscal year 2020-21, the District budgeted \$6.2 million in revenue from all sources. It is Board policy for the District to annually pass balanced budgets.

Long Term Financial Planning

In 2018, the District Board of Trustees adopted a Financial Projection Model to be used as a basis for future decision-making (Figure 2). Based on historical information and projections of revenues and expenditures, the District is looking at a fairly stable financial outlook over the next 8 years. Annual fund balance varies insignificantly on a year to year basis. Average revenue and expenditure growth during the projection period is 2.9% per year. Resulting fund balance is stable but potentially increases approximately 6.8% over the 9-year projection period. With that being said, District management and the Board are committed to passing a balanced budget each fiscal year. The District plans for long term capital needs through a Long Term Capital Improvement Plan. The Financial Projection Model and Long Term Capital Improvement Plan are reviewed and updated annually. The graph below (Figure 2) shows Revenues, Expenditures, and Fund Balance projections as they exist at the beginning for fiscal year 2019-20. As illustrated, in FY 19-20 there is a one-time increase in revenue due to the sale of District property located in Redwood City, CA. This was incorporated into the budget for fiscal year 19-20. The graph below (Figure 3) shows the projection components of fund balance for the same period of time. In FY 21-22 there is a reduction to fund balances due to the use of the Real Property Acquisition Reserve in connection with the purchase of real property to be consummated in July 2021.

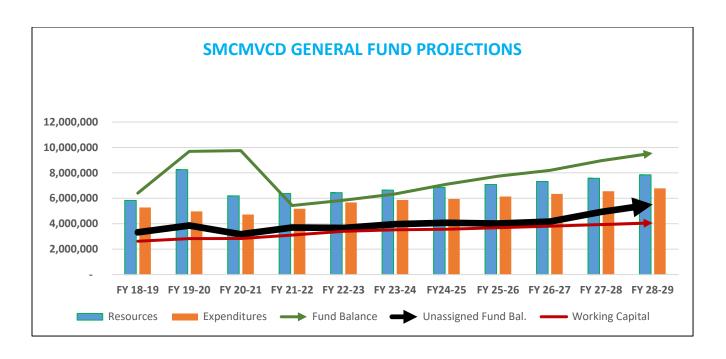

Figure 2: Financial projection of Revenues, Expenditures, and Fund Balances for fiscal year 2018-19 through 28-29.

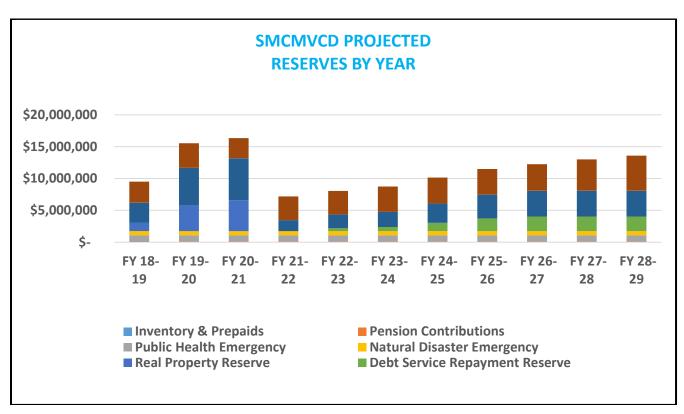

Figure 3: Projections of components of fund balance from FY 18-19 through FY 28-29

Financial Policies

The District has a broad range of Financial Policies that impact the financial aspects of District operations. They include the following:

Fixed Asset Control
District Insurance Programs
Fraud Prevention
Cash Management
District Reserves
Disposal of Surplus Property

Cash Disbursements
Investment of District Funds
Accounts Payable Management
Budget Preparation
Journal Entry Approval

New for FY 2020-21

The following changes were made in 2020-21:

Debt Service Repayment Reserve

The purpose of the Debt Service Repayment Reserve Fund is to accumulate funds and allow for the prepayment of balances of District issued debt in connection with the acquisition of real property. This reserve fund shall be reviewed and updated by the Board of Trustees on a regular basis.

Strategic Plan

In September 2018, the Board of Trustees approved an update to the Strategic Plan. The strategic plan defines the Board's Vision for the future and serves as the basis for decisions on budgeting and allocation of financial resources.

Vision Statement

We are an agency that protects public health through a science-based program of integrated vector management, which is responsive to the community, and prepared to adapt to new challenges.

Mission Statement

To safeguard the health and comfort of the citizens of San Mateo County through a science-based program of integrated vector management.

Strategic Objectives

- 1. Reduce or eliminate host-seeking vector populations and maintain consistency in control operations by evaluating vector populations before and after they are carried out.
- 2. Use scientific methods to evaluate the distribution of vectors and vector-borne diseases in nature and work toward preventing the occurrence of human cases among District residents.
- 3. Engage in research and development to optimize the District's ability to carry out its mission with available resources.
- 4. Maintain a highly motivated, productive staff that is aware of, and has access to, the latest materials, technologies, and techniques in vector control.
- 5. Ensure residents are aware of the District's Integrated Vector Management Program and cooperate with the recommendations to reduce populations of vectors and minimize the risk to human health posed by vectors.
- 6. Ensure that residents are aware of District services, utilize them as needed, and are satisfied with the service they receive.
- 7. Cultivate strong, mutually beneficial relationships with local, state, county, and federal agencies.
- 8. Conduct all aspects of District business in a transparent and accountable manner.
- 9. Adequately maintain District's physical assets and keep them up to date with the best technology available.
- 10. Anticipate and be prepared to respond to future scientific, operational, and financial challenges.
- 11. Ensure that the Board of Trustees operates in an ethical manner, makes sound decisions based on current and complete information, and has the capacity to lead the agency effectively.
- 12. Ensure that District finances are adequately managed to provide for long term financial stability and sustainability.

Awards and Acknowledgements

In 2019, the District renewed both its District of Distinction Accreditation and its District Transparency Certificate of Excellence. The District earned these honors for the first time in 2016 and has maintained certification continuously since that time. The District Transparency Certificate of Excellence and the District of Distinction Accreditation are programs administered by the Special District Leadership Foundation (SDLF) supported by the California Special Districts Association. The SDLF is an independent, non-profit organization formed to promote good governance and best practices among California's special districts through certification, accreditation, and other recognition programs.

The District of Distinction Accreditation is a way for districts to highlight their prudent fiscal practices along with other areas important to effectively operate and govern a special district, including:

- > Operates in a fiscally responsible and transparent manner.
- > Has current and relevant policies and procedures in place.
- > Emphasizes continuing education of both Board and Staff.
- Provides sound policies in board governance and conduct.

The District Transparency Certificate of Excellence covers all general, website, and outreach best practices and requirements regarding transparency for special districts, and demonstrates that the District:

- Follows best practices and other requirements regarding district transparency.
- > Demonstrates the District's effort to being open and accessible to constituents and stakeholders.
- Supports the District's commitment of creating greater awareness of district activities.

Finally, this will be the Fourth Annual Comprehensive Financial Report that will be submitted to the Governmental Financial Officers Association. The District received the award of excellence in Financial Reporting for fiscal years ended June 30, 2018, June 30, 2019 and June 30, 2020.

The preparation of this report would not have been possible without the efficient and dedicated service of the District staff. We would like to express our appreciation to all employees of the District who assisted and contributed in the preparation of this report. Credit must also be given to the Board of Trustees, particularly the Finance Committee, for their unfailing support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

Richard Arrow

Executive Director/CEO

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the San Mateo County Mosquito and Vector Control District Burlingame, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund information of the San Mateo County Mosquito and Vector Control District (District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund information of the District, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Trustees of the San Mateo County Mosquito and Vector Control District Burlingame, California

Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, defined benefit pension plan schedules, and the defined benefit OPEB plan schedules on pages 3–13 and 57–60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, Capital Projects Fund budgetary comparison schedule, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Capital Projects Fund budgetary comparison schedule is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Capital Projects Fund budgetary comparison schedule is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Badawi & Associates, CPAs Berkeley, California

December 11, 2021

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

The following Management's Discussion and Analysis (MD&A) provides an introduction to the financial statements of the San Mateo County Mosquito & Vector Control District (District) for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position of \$14,215,319 was an increase of 6.8%, or \$ 909,849 from the prior year.
- Total revenues from all sources decreased by 14.1%, or \$ 955,496 from the prior year. This was primarily due to the loss of investment earnings due to required "mark to market" adjustments required by accounting principles promulgated by the Governmental Accounting Standards Board of investments held by the District's investment pool. Additionally, in FY 19-20 there was a one time gain on disposal of assets of District property sold last fiscal year.
- Actual revenues exceeded budgeted projections by \$51,265 (.9%), primarily due higher than expected
 Other Tax Revenue offset by a loss of Investment earnings due to year end "mark to market"
 calculations as stated above.
- Total expenditures increased \$622,167 or (11.4%) from the prior fiscal year primarily due from Capital Improvement expenditures associated with building and equipment acquisitions.
- Other than capital leases, the District had no outstanding long term debt.
- District obligations for Other Post Employee Benefits (OPEB) are fully funded by an OPEB Trust established in 2015 (see note 6 of the financial statements).
- In fiscal year 2018-19, the District began accounting for Capital Expenditures in a separate Capital Projects Fund. These expenditures were previously accounted for in the General Fund in fiscal year 2017-18. The District's Long Term Capital Improvement Plan outlines how the District will budget to maintain its equipment and infrastructure.
- In fiscal year 2018-19, the Board established a Pension Rate Stabilization Reserve Fund to pay for potential unfunded liabilities that may arise in the future and cause increases in the District's Required Employer Contribution Rate. Such increases have arisen in the past due to changes in economic market conditions or actuarial assumptions used by the county pension fund.

Using This Financial Report

This annual financial report consists of a series of financial statements. The Government-wide Financial Statements include the Statement of Net Position and the Statement of Activities. These statements provide information about the long term financial status, activities and performance of the District, using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Activities. This statement measures the success of the District's financial operations over the past year and can be used to determine the District's performance and credit worthiness.

Total Net Position	\$	14,215,319	\$	13,305,470	\$	909,849	6.8%

Government-wide Financial Statements

Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better or worse off as a result of this year's financial activities?" The Statement of Net Position and the Statement of Activities report information about the District in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account, regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes to it. Think of the District's net position, the difference between assets and liabilities, as one way to measure the District's financial health, or financial position over time. Increases or decreases in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. Other non-financial factors need to be considered as well, such as changes in the District's property tax base, to assess the *overall health* of the District. For fiscal year 2019-20, The District's revenues increased and its net position improved.

Governmental Fund Financial Statements

Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

Governmental fund financial statements are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

Because the focus of governmental fund statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. The *Reconciliation of the Governmental Funds Balance Sheet to the Government-wide Statement of Net Position* (page 25) and the *Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Government-Wide Statement of Activities* (page 27) facilitate this comparison between the government-wide financial statements and the fund financial statements.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Analysis - Government-Wide Financial Statements

As noted earlier, net position may serve, over time, as a useful indicator of a government's long term financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$14,215,319 as of June 30, 2021. As a result, the District's Total Net Position improved by \$909,849 in FY 20-21.

At the end of fiscal year 2021, the District showed a positive balance in its unrestricted net position of \$11,123,237. This represents economic resources that may be utilized in future years.

The Condensed Statement of Activities below shows how the District's net position changed during the fiscal year. The increase in Net Position was a result of higher revenues and lower expenses than those in the previous fiscal year.

Condensed Statements Activities								
	June 3		June 30, 2020			Change	% Change	
Program Revenues	\$	2,385,199	\$	2,354,423	\$	30,776	1.3%	
Expenses		(5,145,392)		(5,460,096)		314,704	-5.8%	
Net Program Expense		(2,760,193)		(3,105,673)		345,480	-11.1%	
General Revenues		3,670,042		4,696,313		(1,026,271)	-21.9%	
Change in Net Position		909,849		1,590,640		(680,791)	-42.8%

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

Total revenues from all sources decreased by 14.1%, or \$ 955,496 from the prior year. The table below shows the sources of Program and General Revenues received in 2020-21. The District's ad valorem property tax increased by 5.7% or \$158,967, while there were negligible changes to the benefit assessment and special control tax. Also accounting for the change included in FY 19-20 there was a one time gain relative to the disposal of assets and investment earnings were significantly decreased due to the "mark to market conditions" as explained above.

Analysis - Government Fund Financial Statements

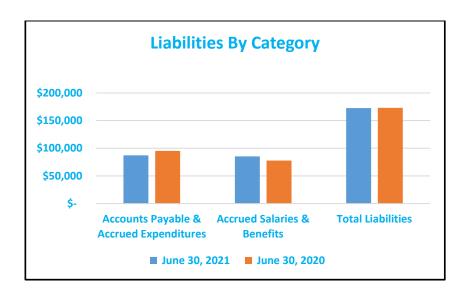

The following balance statement and accompanying charts compare the District assets, liabilities, and fund balance as of June 30, 2021 to those of the previous fiscal year. Cash and Investments make up the majority of the District's assets. In FY 20-21, the District's cash and investments were higher than in the previous fiscal year and its near-term liabilities were virtually unchanged.

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

* Deposits with the VCJPA represent funds on deposit with the District's self-insurance group, the Vector Control Joint Powers Agency (VCJPA). The District keeps a balance in two contingency accounts to cover two years worth of insurance premiums, deductibles, and retained limits for all categories of insurance. These funds may be used for insurance or other purposes as determined by the Board of Trustees.

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

District Reserves

As of June 30, 2021, the District reported a total fund balance of \$ 11,282,648. An amount of \$3,655,744 constitutes the District's *unassigned fund balance*, which is necessary to provide working capital from the beginning of the next fiscal year in July, until the receipt of property tax funds in December. This represent 60% of the FY 2019-20 budgeted operational expenditures.

The Board of Trustees allocated a portion of the District's Fund Balance to various Reserve Funds. Generally Accepted Accounting Principles defines the categories of reserves as follows:

- Restricted Reserves that are legally restricted as to their use. These include funds reserved for Pension Rate Stabilization to be used if there are unexpected increases of retirement expenditures.
- ➤ Non-spendable Reserves that are not available for expenditure. This includes resources such as inventory or other prepaid expenditures.
- ➤ Committed Reserves that are committed for specific purposes by action of the District's governing board. Expenditure of these funds requires formal action by the governing board.
- ➤ Assigned Reserves that are assigned for a specific purposes by the governing board
- ➤ Unassigned. All other fund balances that are not designated to the above categories. This includes amounts available for working capital.

The following table shows the Board-approved reserve balances in FY 2020-21 as compared to FY 2019-20:

Reserves	Category	June 30, 2021	June 30, 2020
Nonspendable	Nonspendable	\$ 179,502	\$ 169,061
Pension Rate Stabilization	Restricted	125,133	110,425
Public Health Emergency	Committed	800,000	800,000
Natural Disaster Emergency	Assigned	650,000	650,000
Real Property Reserve	Assigned	4,850,000	4,100,000
Cap. Asset & Equip. Replacement	Assigned	1,022,269	897,649
Unassigned	Unassigned	3,655,744	3,864,573
Total	,	\$ 11,282,648	\$ 10,591,708

Changes in Designated Reserve levels for FY 2020-21 were as follows:

- ➤ Non-spendable reserves increased principally by the amount of pesticide inventory at June 30, 2021 and by increases to prepaid expenditures.
- ➤ A Real Property Acquisition Reserve was created. A Real Estate Needs Assessment was completed in the spring of 2019. This assessment identified an urgent need for additional secured vehicle and equipment storage and office space. Based on the assessment, the Board concluded that it needed to acquire additional property in the near future. The Real Property Acquisition Reserve was created to accumulate funds for this purpose.
- Unassigned is the mathematical difference between all other categories and total fund balance.

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

Comparison of Budgeted to Actual Revenues and Expenditures for FY 2020-21

The tables below compares Actual Revenues and Expenditures to those budgeted.

General Fund Revenues (Budget to Actual):

Major Drivers of Excess Revenue						
July 1 Through June 30, 2021	Budget			Actual	Variance	
Other Tax Revenues	\$	470,200	\$	694,190	\$	223,990
Investment Earnings		164,066		(21,516)		(185,582)

Revenues received during the current year were \$51,625 above the amount included in the amended budget for FY 2020-21. The District's three primary sources of recurring revenue (Property and Other taxes, Benefit Assessment, and Special Tax) were greater than the amount budgeted by \$247,751 principally from the receipt of excess Education Revenue Augmentation Funds and Redevelopment Passthrough payments received from the County of San Mateo. Investment earnings resulted in negative amounts resulting from the GASB required "mark to market" calculations at year end.

GENERAL FUND:	Final	Actual		V	ariance w/	
	Budget Amounts			Final Budget		
Service Abatement Revenue	\$ 230,348	\$	242,504	\$	12,156	
Special Benefit Assessment	1,622,508		1,655,926		33,418	
Special Mosquito Control Tax	486,144		486,768		624	
Property Taxes	2,967,108		2,956,827		(10,281)	
Other Tax Revenues	470,200		694,190		223,990	
Investment Earnings	164,066		(21,516)		(185,582)	
Other Revenue	 64,690		41,630		(23,060)	
Total Revenues	\$ 6,005,064	\$	6,056,329	\$	51,265	

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

General Fund Expenditures (Budget to Actual):

GENERAL FUND:	Final			Actual	Variance w/	
		Budget		Amounts	Final Budge	
EXPENDITURES:						
Salaries & Benefits	\$	3,653,653	\$	3,477,118	\$	176,535
Training		41,300		12,790		28,510
Administration & Insurance		700,758		579,479		121,279
Computer Hardware & Software		114,493		73,199		41,294
Facilities & Utilities		144,315		108,838		35,477
Fleet Maintenance		60,548		53,695		6,853
Operations		305,801		271,708		34,093
Laboratory		81,299		72,801		8,498
Public Outreach		77,522		74,757		2,765
Total Expenditures	\$	5,179,689	\$	4,724,385	\$	455,304

Within the above major expenditure categories, significant savings resulted from the following:

Salaries & Benefits	\$ 176,535 Due to position vacancies and salary savings
Training - Board and StaffAdministration services	\$ 28,510 due to travel restrictions resulting from Covid 19 \$ 121,279 due to savings in legal, consulting, and other
Technology Services	\$ 41,294 due to reduced contract, licensing, and hardware
exp.Operationsexpenditures	\$ 34,093 due to decreased helicopter & pesticide

Capital Asset Administration

Changes in Capital Assets at the end of fiscal year 2020-21 are as follows:

Capital Assets:	Ju	June 30, 2021		June 30, 2020		Change	% Change	
Non -Depreciable Assets	\$	439,482	\$	91,167	\$	348,315	382.1%	
Depreciable Assets		6,080,312		5,737,706		342,606	6.0%	
Accumulated Depreciation		(3,427,257)		(3,240,641)		(186,616)	5.8%	
Total Capital Assets, Net	\$	3,092,537	\$	2,588,232	\$	504,305	19.5%	

At the end of fiscal year 2020-21, the District's investment in capital assets amounted to \$ 3,092,537 (net of accumulated depreciation). This investment in capital assets includes land, structures, improvements, furniture, equipment, and vehicles.

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2021

See note 3 of the District's financial statements for further information on the District's capital assets. Also, the below table shows a comparison of actual and budgeted capital expenditures for FY 2021.

CAPITAL FUND	Final	Final Actual		Variance w/	
	Budget		Amounts	Final Budge	
Materials & Supplies	\$ -	\$	446	\$	(446)
Capital Outlay	1,010,376		690,922		319,454
Debt Service					-
Principal	-		45,772		(45,772)
Interest	-		5,518		(5,518)
Total Expenditures	\$ 1,010,376	\$	742,658	\$	267,718

The major variance during the year resulted from the delay of purchasing and furnishing a District property acquired in August, 2021.

Debt Administration	June 30, 2021		June 30), 2020	Change	% Change
Capital Leases:	\$	125,588	\$	68,618	\$ 56,970	83.0%

Other than capital leases, the District has no outstanding long-term debt. See further detail in note 5 of the District's financial statements. Additionally, the District's Other Post Employment Benefit obligations are completely funded at June 30, 2021 by an OPEB trust.

Conditions Affecting Current Financial Position

Management is unaware of any conditions that could have a significant impact on the District's current or long term financial position or any other factors that would have a significant impact on the ability of the District in fulfilling its mission.

Requests for Information

The District's basic financial statements is designed to present users with a general overview of the District's finances and to demonstrate the District's accountability. If you have any questions about the report or need additional information, please contact the District Manager at the San Mateo County Mosquito and Vector Control District, 1351 Rollins Road, Burlingame, California 94010 or (650) 344-8592.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the year ended June 30, 2021

Amounts reported for governmental activities in the Statement of Activities are different because: Governmental funds report capital outlay as expenditures. In the statement of activities, however, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Capital outlay	
cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	
Capital outlay	
	690,921
Depreciation expense	(186,616)
Capital lease financing provided current financial resources to Governmental Funds, but capital lease financing increased long-term liabilities in the Government-Wide Statement of Net Position	(102,743)
Current year employer pension contributions are recorded as expenditures in the governmental funds, however these amounts are reported a deferred outflow of resources on the Government-Wide Statement of Net Position.	281,349
Pension expense is recorded as incurred in the Government-Wide Statement of Activities, however pension expense is not recognized in the governmental funds.	(585,836)
OPEB expense (income) is recorded as incurred in the Government-Wide Statement of Activities, however OPEB expense is not recognized in the governmental funds.	40,832
Repayments of debt principal is an expenditure in the governmental funds, but the repayment reduces the long-term liabilities in the statement of net position.	45,772
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Change in compensated absences	35,230
	33,230
Change in Net Position of Governmental Activities	909,849

NOTES TO BASIC FINANCIAL STATEMENT

This page intentionally left blank.

Notes to Basic Financial Statements For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization and Operations of the Reporting Entity

The San Mateo Mosquito and Vector Control District (District) is a special district established in 1916 empowered to take all necessary and proper steps for the control of mosquitos and other vectors within the District.

In the fiscal year ended June 30, 2004, the District expanded their services to the cities of San Bruno, South San Francisco, Daly City, Colma, Brisbane, Pacifica and Half Moon Bay, which encompass the North and West County District (NWCD). The revenue related to servicing the NWCD is accounted for as a special assessment charge placed on the property parcels within that service area.

In the fiscal year ended June 30, 2008, the San Mateo County Board of Supervisors passed a resolution to transfer specific vector control operations and responsibilities to the San Mateo County Mosquito Abatement District. As a result, the District changed its name to the San Mateo County Mosquito and Vector Control District. The District is governed by a twenty-one member Board of Trustees that are appointed by each of the incorporated cities and the unincorporated San Mateo County areas within the District's service area.

B. Basis of Accounting and Measurement Focus

The District's financial statements are prepared in conformity with U.S. GAAP. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States.

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the activities of the primary government. The effect of inter-fund activity has been removed from these statements and eliminations have been made to minimize the double counting of internal activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

In accordance with U.S. GAAP the Statement of Net Position reports separate sections for Deferred Outflows of Resources, and Deferred Inflows of Resources, when applicable.

<u>Deferred Outflows of Resources</u> represent outflows of resources (consumption of net position) that apply to future periods and that, therefore, will not be recognized as an expense until that time.

<u>Deferred Inflows of Resources</u> represent inflows of resources (acquisition of net position) that apply to future periods and that, therefore, are not recognized as a revenue until that time.

Notes to Basic Financial Statements

For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basis of Accounting and Measurement Focus, Continued

The government-wide financial statements are reported using the "economic resources" measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements

Governmental fund financial statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal year and other revenues when collected within one year of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The primary revenue sources susceptible to accrual are property taxes, charges for services, and interest associated with the current fiscal period and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major funds:

Governmental Funds:

General Fund – is a government's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund when necessary.

Capital Project Fund – is used to account for financial resources that have been restricted, committed, or assigned for capital projects and equipment acquisition.

C. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in District net position during the reporting period. Actual results could differ from those estimates.

D. Investments

Changes in fair value that occur during a fiscal year are recognized as unrealized gains or losses and reported for that fiscal year. Investment income comprises interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

Notes to Basic Financial Statements

For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

E. Materials and Supplies Inventory

Inventories consist of expendable supplies and are valued at cost using a first-in first-out basis.

F. Prepaid Items

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepayments are amortized and recognized as expenditures in the period consumed using the consumption method.

G. Capital Assets

Capital assets are recorded in the government-wide financial statements. Included in capital assets are equipment used at the District. District policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated assets are recorded at estimated acquisition cost at the date of donation. Capital outlay is recorded as expenditures of the General Fund and as assets in the government-wide financial statements to the extent the District's capitalization threshold is met. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Class	Useful Lives
Structures and improvements	7-50 years
Furniture and equipment	5-20 years
Vehicles	5-15 years

H. Compensated Absences

The District's policy is to permit full time employees to accumulate earned vacation time and sick leave. Earned vacation time shall be earned by each employee subject to the accrual limitations defined by District policies. Such unused compensation is calculated at the employees' then prevalent hourly rate at the time of retirement or termination. Whereas vacation time is compensated at 100% of accumulated hours. Sick leave is accrued and compensated only at retirement based on the years of employment up to a maximum of \$7,500.

I. Pension Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The following timeframes are used for pension reporting:

San Mateo County Employees' Retirement Association (SamCERA)

Valuation Date June 30, 2020 Measurement Date June 30, 2020

Measurement Period July 1, 2019 to June 30, 2020

Notes to Basic Financial Statements For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

I. Pension Plan, Continued

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period, which is 5 years for SamCERA.

J. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Authority's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2020 Measurement Date June 30, 2021

Measurement Period June 30, 2020 to June 30, 2021

K. Property Taxes

The San Mateo County Assessor's Office assesses all real and personal property within the County each year. The San Mateo County Tax Collector's Office bills and collects the District's share of property taxes and assessments. The San Mateo County Auditor-Controller's Office remits current property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article 13A of the State Constitution at no more than one percent (1%) of countywide assessed valuations.

Property taxes receivable at year-end are related to property taxes collected by San Mateo County, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date March 1 Levy date July 1

Due dates November 1 and March 1
Collection dates December 10 and April 10

Property taxes levied are recorded as revenue when received, in the fiscal year of levy, because of the adoption of the alternate method of property tax distribution known as the Teeter Plan, by the District and San Mateo County. The Teeter Plan authorizes the County Auditor-Controller to allocate 100% of the secured property tax billed but not yet received or paid to the District. San Mateo County remits tax proceeds to the District in three installments during the fiscal year as follows: 50% remitted on December 15, 40% remitted on April 15 and 10% on June 30.

Notes to Basic Financial Statements For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

L. Special Assessment Revenue

Special assessments determined by the District are included on property tax bills of San Mateo County. Special assessments are recorded as revenue when received, in the fiscal year of receipt, because of the adoption of the alternate method of property tax distribution known as the Teeter Plan, by the District and San Mateo County. San Mateo County remits the special assessments to the District on the same schedule as property taxes.

M. Net position

Net position is categorized as follows:

Net Investment in Capital Assets - this component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding debt outstanding against the acquisition, construction or improvement of those assets.

Restricted – this component of net position consists of constraints placed on net position use through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – this component of net position consists of net amount of assets that are not included in the determination of restricted or net investment in capital assets.

N. Fund Balance

The financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

Nonspendable – amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.

Restricted – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions enabling legislation.

Committed – amounts that can only be used for specific purposes determined by formal action of the District's highest level of decision-making authority (the Board of Trustees) and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

Assigned – amounts that are constrained by the District's intent to be used for specific purposes. The intent can be established at either the highest level of decision-making, or by a body or an official designated for that purpose.

Unassigned – the residual classification for the District's general fund that includes amounts not contained in the other classifications.

Notes to Basic Financial Statements For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

N. Fund Balance, Continued

The Board of Trustees establishes, modifies or rescinds fund balance commitments and assignments by passage of a resolution. This is done through adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the unrestricted, committed, assigned and unassigned resources as they are needed.

The District believes that sound financial management principles require that sufficient funds be retained by the District to provide a stable financial base at all times. To retain this stable financial base, the District needs to maintain an unrestricted fund balance in its funds sufficient to fund cash flows of the District and to provide financial reserves for unanticipated expenditures and/or revenue shortfalls of an emergency nature. Committed, assigned and unassigned fund balances are considered unrestricted.

The purpose of the District's fund balance policy is to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unpredicted one-time expenditures.

O. New Accounting Pronouncements

In 2021, the District adopted new accounting standards in order to conform to the following Governmental Accounting Standards Board Statements:

In 2021, the City adopted new accounting standards in order to conform to the following Governmental Accounting Standards Board Statements:

- ➤ GASB Statement No. 84 *Fiduciary Activities* The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this statement did not apply to the District for the current fiscal yar.
- ➤ GASB Statement No. 90 Majority Equity Interests The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legal separate organization should be reported as an investment if a government's holding of the equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. The requirements of this statement did not apply to the District for the current fiscal year.

San Mateo County Mosquito and Vector Control District Notes to Basic Financial Statements For the year ended June 30, 2021

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

O. New Accounting Pronouncements, Continued

- ➤ GASB Statement No. 93 Interbank Offered Rates (except LIBOR removal and lease modifications) -Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) -most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate. GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, as amended, requires a government to terminate hedge accounting when it renegotiates or amends a critical term of a hedging derivative instrument, such as the reference rate of a hedging derivative instrument's variable payment. In addition, in accordance with GASB Statement No. 87, Leases, as amended, replacement of the rate on which variable payments depend in a lease contract would require a government to apply the provisions for lease modifications, including remeasurement of the lease liability or lease receivable. The objective of GASB Statement No. 93 is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. The requirements of this statement did not apply to the District during current fiscal year.
- PGASB STATEMENT NO. 97 Certain Component Unit Criteria, And Accounting And Financial Reporting For Internal Revenue Code Section 457 Deferred Compensation Plans an Amendment Of GASB Statements No. 14 And No. 84, And A Supersession Of GASB Statement No. 32 The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements of this statement did not apply to the District for the current fiscal year.
- ➤ GASB STATEMENT NO. 98 The Annual Comprehensive Financial Report. This Statement establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. The District has changed the report title as part of implementation of this standard.

Notes to Basic Financial Statements For the year ended June 30, 2021

2. CASH AND INVESTMENTS

Cash and investments as of June 30, 2021, consisted of the following:

Description		Balance
Cash on hand Deposits held with San Mateo County Pooled Investment Fund (SMCPIF)	\$	400 10,564,391
Restricted cash and investment		125,133
Total cash and investments	\$	10,689,924
Reporting Unit		Balance
Primary Government	\$	10,689,924
Total cash and investments	\$	10,689,924

A. Custodial Credit Risk

The custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's investment policy requires that collateral be held by an independent third party with whom the District has a current custodial agreement.

The custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's investment policy requires that all security transactions are conducted on a delivery-versus-payment (DVP) method and that all securities are held by a qualified, third-party custodian, as evidenced by safekeeping receipts. The trust department of the District's bank may act as third-party custodian, provided that the custodian agreement is separate from the banking agreement. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as SMCPIF). As of June 30, 2021, none of the District's deposits or investments were exposed to disclosable custodial credit risk.

B. Investments

Investments as of June 30, 2021, consisted of the following:

			Maturity
			12 Months or
Investments	Credit Rating	Fair Value	Less
San Mateo County Pooled Investment Fund (SMCPIF)	Aa1/P-1	\$ 10,564,391	\$ 10,564,391
Total investments		\$ 10,564,391	\$ 10,564,391

Notes to Basic Financial Statements For the year ended June 30, 2021

2. CASH AND INVESTMENTS, Continued

C. Authorized Deposits and Investments

The District has adopted an investment policy which allows deposits into financial institutions and the San Mateo County Treasury's Pooled Investment Fund.

D. San Mateo County Treasury - Pooled Investment Fund

The San Mateo County Pooled Investment Fund (SMCPIF) is a pooled investment fund program governed by the San Mateo County Board of Supervisors and administered by the San Mateo County Treasurer. Investments in SMCPIF are highly liquid as deposits and withdrawals can be made at any time without penalty. SMCPIF does not impose a maximum investment limit. The San Mateo County bank deposits are either federally insured or collateralized in accordance with the California Government Code.

The San Mateo County Treasurer has indicated to the District that as of June 30, 2021, the value of the County's portfolio approximated \$6.532 billion and the portfolio holds no derivative products. The District's investment with the County Treasurer's Office as of June 30, 2021 was \$10,564,391. SMCPIF's fair value factor of 1.0037 as of June 30, 2021 was used to calculate the fair value of the investments in the SMCPIF.

Participants' equity in the investment pool is determined by the dollar amount of participant deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on an amortized cost basis. Interest payments, accrued interest, accreted discounts, amortized premiums, and realized capital gains and losses, net of administrative fees, are apportioned to pool participants every quarter. This method differs from the fair value method used to value investments in these financial statements as unrealized gains or losses are not apportioned to pool participants. Income from pooled investments is allocated to individual funds or external participants based on each fund's or participant's average daily cash balance at quarter end in relation to the total pool investments. Pool detail may be obtained from the County of San Mateo Treasurer-Tax Collector Office - 555 County Center, 1st Floor -Redwood City, CA 94063 the Treasurer and Tax Collector's office website at www.sanmateocountytreasurer.org.

E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. As of June 30, 2021, the District's investment in the SMCPIF was rated by Moody as Aa1/P-1 as noted in the table above.

F. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments with longer maturities have greater sensitivity to changes in market interest rates. The District's investment policy follows the Code as it relates to limits on investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The District has elected to use the segmented time distribution method of disclosure for the maturities of its investments as related to interest rate risk as noted in the table above.

Notes to Basic Financial Statements For the year ended June 30, 2021

2. CASH AND INVESTMENTS, Continued

G. Concentration of Credit Risk

The District's investment policy contains no limitations on the amount that can be invested in any one governmental agency or non-governmental issuer beyond that stipulated by the California Government Code. There were no investments in any one governmental or non-governmental issuer that represented 5% or more of the District's total investments except for those in the SMCPIF.

3. CAPITAL ASSETS

Changes in capital assets for the year were as follows:

	Balance June 30, 2020	Additions	Deletions	Balance June 30, 2021		
Non-depreciable capital assets:						
Land	\$ 91,167	\$ -	\$ -	\$ 91,167		
Construction-in-process	-	348,315	-	348,315		
Total non-depreciable capital assets	91,167	348,315	-	439,482		
Depreciable capital assets:						
Structures and improvements	4,061,104	139,134	-	4,200,238		
Furniture and equipment	576,614	70,859	-	647,473		
Vehicles	884,502	132,613	-	1,017,115		
Software	215,486			215,486		
Total depreciable capital assets	5,737,706	342,606	-	6,080,312		
Accumulated depreciation:						
Structures and improvements	(1,794,574)	(104,060)	-	(1,898,634)

Total accumulated depreciation	(3,240,641)	(186,616)	-	(3,427,257)		
Total depreciable capital assets, net	2,497,065	155,990		2,653,055		
Total capital assets, net	\$ 2,588,232	\$ 504,305	\$ -	\$ 3,092,537		

Notes to Basic Financial Statements

For the year ended June 30, 2021

4. COMPENSATED ABSENCES

Compensated absences comprise unpaid vacation leave, sick leave and compensating time off which is accrued as earned. The District's liability for compensated absences is determined annually.

The changes to the compensated absences balance at June 30, 2021 were as follows:

I	Balance	Αc	lditions/	Deletions/ Balance		ons/ Deletions/ Balance Current		Lo	ong-term		
Jun	June 30, 2020		Transfers		Transfers June 30, 2021		F	Portion]	Portion	
\$	323,129	\$	199,191	\$	(234,419)	\$	287,901	\$	54,701	\$	233,200

5. CAPITAL LEASES

Changes in capital lease amounts for the year ended June 30, 2021 were as follows:

Balaı	nce	Ad	lditions/	Deletions/		Balance		Current		Long-term	
June 30,	, 2020	T_1	ransfers	Transfers		June 30, 2021		Portion		Portion	
\$ 6	8,618	\$	102,742	\$	(45,772)	\$	125,588	\$	37,004	\$	88,584

The District has recorded various capital leases in regards to the District's vehicle fleet. Principal and interest are payable monthly with varying interest rates. The remaining principal and interest amounts will be payable as follows:

Fiscal Year	Principal		I	Interest		Total
2022	\$	37,004	\$	8,184	\$	45,188
2023		36,030		8,544		44,574
2024		23,064		5,040		28,104
2025		20,316		4,284		24,600
2026		9,174		2,010		11,184
Total	\$	125,588	\$	28,062	\$	153,650
Current	\$	37,004				
Long-term	\$	88,584				

Notes to Basic Financial Statements For the year ended June 30, 2021

6. OTHER POST-EMPLOYMENT BENEFITS

A. Plan Description

The District has established an Other Postemployment Benefit plan (OPEB Plan) and participates in an agent multiple-employer defined benefit retiree healthcare plan. The District reimburses a portion of the cost of health care for eligible retirees Depending on the number of years of service and the circumstances surrounding retirement, employees may be eligible to receive health care insurance cost reimbursement between 25% to 100% and prescription drug coverage reimbursement of \$500 to \$1,000 per year. District employees retiring prior to 2016 were not permitted to retain their coverage in the District's healthcare plans beyond the COBRA period. However, employees retiring in 2016 or later may continue their District medical coverage through FDAC until reaching age 65 or becoming eligible for coverage under Medicare. A surviving spouse is entitled to receive the same contribution the retiree would have received for four years following the retiree's death.

B. Employees Covered

As of the June 30, 2021 actuarial valuation, the following current and former employees were covered by the benefit terms under the OPEB Plan:

Active employees	21
Inactive employees or beneficiaries currently receiving benefits	6
	27

C. Contributions

The contribution requirements of plan members and the District are established and may be amended by the District's governing board. The annual contribution is based on the actuarially determined contribution. For the fiscal year ended June 30, 2021, the District's estimated implied subsidy was \$0.

D. Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2021 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2020 to determine the June 30, 2021 total OPEB liability, based on the following actuarial methods and assumptions:

Actuarial Assumption:

Discount Rate 4.90%

General Inflation 2.5% per annum Salary Increases 3.0% per year

Investment Rate of Return 4.90%

Mortality Rate(1) MacLeod Watts Scale 2020 applied

generationally from 2010

Healthcare Trend Rate 4.80% for 2021, increasing to an

ultimate rate of 4.90% in 2060 and

later years

Notes:

(1) Pre-retirement mortality information was derived from SamCERA 2017 Experience

Notes to Basic Financial Statements For the year ended June 30, 2021

6. OTHER POST-EMPLOYMENT BENEFITS, Continued

D. Net OPEB Liability, Continued

The long-term expected rate of return on OPEB plan investments was determined using a building block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

OPEB	Trust	Fund
\//!!!	HUDL	runu

Investment Class	nent Class Target Allocation	
Equity	30.00%	
Large Cap Core	15.50%	6.80%
Mid Cap Core	3.00%	7.10%
Small Cap Core	4.50%	7.90%
Real Estate	1.00%	6.60%
International	4.00%	7.30%
Emerging Markets	2.00%	7.30%
Fixed Income	65.00%	
Short Term Bond	14.00%	3.30%
Intermediate Term Bond	49.25%	3.90%
High Yield	1.75%	6.10%
Cash	5.00%	2.40%
TOTAL	100.00%	

At the time the valuation was prepared, the District was invested in the Moderate Portfolio, which had an expected return of 5.47.9%. Based on the District's OPEB trust balance, the District assumed 55 basis points in non-imbedded fees for a net expected return of 4.92%. The District approved 4.9% for valuation purposes.

E. Discount Rate

The discount rate used to measure the total OPEB liability was 4.9 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to Basic Financial Statements

For the year ended June 30, 2021

6. OTHER POST-EMPLOYMENT BENEFITS, Continued

F. Changes in the OPEB Liability

The changes in the net OPEB liability for the OPEB Plan are as follows:

	Increase (Decrease)					
	Total OPEB Liability		Plan Fiduciary Net Position			Net OPEB pility/(Asset)
Balance at June 30, 2020						
(Measurement date 06/30/2020)	\$	1,134,062	\$	2,236,697	\$	(1,102,635)
Prior Period Adjustment		-		4,645		(4,645)
Changes in the year:	_

J. Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The recognition period differs depending on the source of the gain or loss:

Net difference between projected					
and actual earnings on OPEB	5 Years				
plan investments					
	Straight-line recognition over 10.48 years,				
	the expected average remaining service				
	lifetime(EARSL) of all members that are				
	provided with benefits, determined as of the				
All other amounts	beginning of the Measurement Period. In				
All other amounts	determining the EARSL, all active, retired				
	and inactive members are counted, with the				
	latter two groups having 0 remaining service				
	years.				

K. OPEB Expense and Deferred Outflows/ (Inflows) of Resources Related to OPEB

For the fiscal year ended June 30, 2021, the District recognized OPEB expense of \$40,832. For the fiscal year ended June 30, 2021, the District reported deferred inflows of resources related to OPEB from the following sources:

		eferred tflows of esources	Deferred Inflows of Resources	
Changes of Assumptions Difference Between Expected and Actual Experience Net differences between projected and actual earnings on plan investments	\$	81,693 - -	\$	17,435 156,016 152,669
Total	\$	81,693	\$	326,120

Notes to Basic Financial Statements For the year ended June 30, 2021

2026	(11,974)
Thereafter	(31,888)

7. DEFINED BENEFIT PENSION PLAN AND THE NET PENSION LIABILITY

A. Plan Description

San Mateo County Employees' Retirement Association (SamCERA) is a cost-sharing multiple-employer, defined benefit pension plan that provides benefits for substantially all permanent employees of the County and the District. SamCERA was founded in 1944 under the authority granted by Article XVI of the Constitution of the State of California and the County Employees' Retirement Law of 1937 (the 1937 Act). SamCERA is not subject to the provisions of the Employee Retirement Income Security Act of 1974.

Management of SamCERA is vested in the Board of Retirement consisting of nine members; and its operation is governed by the 1937 Act and the by-laws, procedures, and policies adopted by the Board of Retirement. SamCERA issues a publicly available financial report that can be obtained by writing to the San Mateo County Employees' Retirement Association, 100 Marine Parkway, Suite 125, Redwood Shores, California 94065.

B. Benefits Provided

SamCERA provides service retirement, disability, and death benefits to plan members and beneficiaries based on defined benefit formulas using final average compensation, years of service, and age factors to calculate benefits payable. SamCERA has four plans that cover members classified as general, safety, or probation, and provides annual cost-of-living adjustments upon retirement to members of Plans One, Two, and Four. The benefits of Plan Three are reduced by a portion of Social Security benefits received by the member. The 1937 Act vests the County Board with the authority to initiate benefits, while Government Code Section 31592.2 empowers the Board of Retirement to provide certain ad hoc benefits when the Section 31592 reserve exceeds 1% of assets.

Notes to Basic Financial Statements For the year ended June 30, 2021

7. DEFINED BENEFIT PENSION PLAN AND THE NET PENSION LIABILITY, Continued

B. Benefits Provided, Continued

General members in Plans One, Two, and Four may retire at any age after 30 years of service. Safety members and Probation members may retire at any age after 20 years of service. A member who leaves County service may withdraw his or her contributions, plus any accumulated interest. Members with five years of service, permanent part-time employees with five years of full-time service, or non-contributory members (Plan Three) with 10 years of service, may elect a deferred retirement when terminating their employment with the County or District.

C. Contributions and Funding

The 1937 Act established the basic obligations for employers and members to make contributions to the pension trust fund. The employer and member contribution rates are based on recommendations made by an independent actuary and adopted by the Board of Retirement. The participating employers are required by statutes to contribute the amounts necessary to fund the estimated benefits accruing to SamCERA members not otherwise funded by member contributions or expected investment earnings. Contribution rates are actuarially determined using the entry age normal method and consist of an amount for normal cost, the estimated amount necessary to finance benefits earned by members during the year, and an amount required to amortize the unfunded net pension liability. For the fiscal year ended June 30, 2021, the District's contribution was \$281,349. The District's employer contribution rate was 12.58% of the covered payroll and the member contribution rate was 9.249%.

The District's contributions to the Plan for the year ended June 30, 2021 was \$281,349.

D. Actuarial Methods and Assumptions Used to Determine Total Pension Liability

The actuarial assumptions included 2.50% annual inflation rate, 6.67% annual investment rate of return, and 3.00% average annual projected salary increase attributed to inflation of 2.50%. The June 30, 2020 total pension liabilities were based on the following actuarial methods and assumptions:

Valuation Date June 30, 2020 Measurement Date June 30, 2020

Actuarial Cost Method Individual Entry Age Normal

Amortization Method:

Level percent or level dollar Level percent closed, open, or layered periods Layered Amortization Period for Each Layer 15-years

Asset Valuation Method:

Recognition method Market Value of Asset

Inflation 2.50%

Investment Rate of Return 6.67% (with included administrative expense load of 0.17%)

San Mateo County Mosquito and Vector Control District Notes to Basic Financial Statements For the year ended June 30, 2021

7. DEFINED BENEFIT PENSION PLAN AND THE NET PENSION LIABILITY, Continued

E. Discount Rate

The discount rate used to measure the total pension liability was 6.67 percent, which is gross of administrative and other investment expenses. A long-term investment return excluding administrative and other investment expenses would have been 6.50 percent. Management has determined that using the higher discount rate has resulted in a slightly lower total pension liability and net pension liability and the difference was deemed immaterial to the financial statements. The long-term expected rate of return on pension plan investments was determined in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were considered. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. Real returns by asset class as shown in the following table reflect the average arithmetic real return assumptions of the Plan's investment consultants as of June 30, 2021.

		Long-Term
	Target	Expected Real
Investment Type	Allocation	Rate of Return
Equity	40.00%	4.70%
Fixed Income	26.00%	0.60%
Alternatives	12.00%	5.00%
Risk Parity	4.00%	4.90%

7. DEFINED BENEFIT PENSION PLAN AND THE NET PENSION LIABILITY, Continued

H. Pension Expense

For the measurement period ending June 30, 2020, the District incurred pension expense of \$585,836 as follows:

				District's Pension
	Plan's Pension Expense		Expense 0.1372%	
Pension expense:				
Service Cost	\$	119,882,786	\$	164,479
Interest on the total pension liability		356,056,094		488,509
Administrative expenses and other non-investment expenses		8,392,465		11,514
Member contributions		(70,630,765)		(96,905)
Expected investment return net of expenses		(315,523,613)		(432,898)
Recognition of Deferred Outflows/Inflows:				
Recognition of economic/demographic gains(losses)		44,003,230		60,372
Recognition of assumptions changes or inputs		82,735,716		113,513
Recognition of net investment gains(losses)		71,715,112		98,393
Amortization of employer specific deferred outflows/inflows		N/A		178,858
Total pension expense	\$	296,631,025	\$	585,836

I. Deferred Outflows and Deferred Inflows of Resources Related to Pensions

As of June 30, 2021, the District has deferred outflows and deferred inflows of resources related to pensions as follows:

Account Description	Deferred Outflows of Resources		Deferred Inflows of Resources	
Employer contributions to pension plan made after the measurement date	\$	281,349	\$	-
Changes in employers proportionate share		52,315		529,277
Changes of assumptions		192,633		-
Net differences between projected and actual earnings		278,841		-
Differences between expected and actual economic experience		177,589		-
Total Deferred Outflows/(Inflows) of Resources	\$	982,727	\$	529,277

The District will recognize \$281,349 reported as deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date as a reduction of the net pension liability in the fiscal year ended June 30, 2022.

San Mateo County Mosquito and Vector Control District Notes to Basic Financial Statements

For the year ended June 30, 2021

7. DEFINED BENEFIT PENSION PLAN AND THE NET PENSION LIABILITY, Continued

I. Deferred Outflows and Deferred Inflows of Resources Related to Pensions, Continued

Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

	Γ	Deferred		
	C	Outflows		
Amortization Period	(In	(Inflows) of		
Fiscal Year Ended June 30	Re	Resources		
2022	\$	50,367		
2023		5,507		
2024		79,786		
2025		36,441		
Total	\$	172,101		

8. NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets as of June 30, 2021 consisted of the following:

Description		Balance		
Capital assets – not being depreciated	\$	439,482		
Capital assets – being depreciated, net		2,653,055		
Capital leases – current portion		(37,004)		
Capital leases – noncurrent portion		(88,584)		
Total net investment in capital assets	\$	2,966,949		

San Mateo County Mosquito and Vector Control District Notes to Basic Financial Statements For the year ended June 30, 2021

9. FUND BALANCE

A detailed schedule of fund balances and their funding composition at June 30, 2021 is as follows:

			Cap	ital Project
Description	General Fund		Fund	
Nonspendable:

Unassigned:				
Six month operating reserve		3,655,744		-
Total unassigned		3,655,744		
Total fund balances	\$	10,260,379	\$	1,022,269

10. DEFERRED COMPENSATION SAVINGS PLAN

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program. The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District and are not subject to claims of the District's general creditors.

In the year 2021, The District has evaluated the requirements of GASB Statement No. 84, Fiduciary Activities and GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans and determined that plan didn't meet the criteria to be reported as a fiduciary activity, as required by the above mentioned GASB Statements. Moreover, the plan is classified as other employee benefits for financial reporting purposes.

Notes to Basic Financial Statements For the year ended June 30, 2021

11. RISK MANAGEMENT

Self-Insurance and Joint Powers Agency

The District participates with other districts in a joint venture under a joint powers agreement, which established the Vector Control Joint Powers Agency (VCJPA). The relationship between the District and the VCJPA is such that the VCJPA is not a component unit of the District for financial reporting purposes.

The VCJPA is a consortium of thirty-four districts located throughout California. It was established under the provisions of California Government Code Section 6500 et seq. The VCJPA is governed by a Board of Directors, which meets 4-5 times per year, consisting of one member from each of the four regions (Coastal, Sacramento Valley, San Joaquin Valley, and Southern California) and two members from the Trustee Advisory Council.

The District is covered for the first \$1,000,000 of each general liability claim and \$500,000 of each workers' compensation claim through the VCJPA. The District has the right to receive dividends or the obligation to pay assessments based on a formula, which, among other expenses, charges the District's account for liability losses and workers' compensation losses under their individual self-insured retention (SIR). The VCJPA participates in an excess pool, which provides general liability coverage above \$1,000,000 for each occurrence up to \$14,000,000.

The VCJPA also participates in an excess pool, which provides workers' compensation coverage from \$5,000,000 to \$50,000,000.

The District's share of the VCJPA's Members Trust Fund and Property Contingency Fund balance as of June 30, 2021 totaled \$506,057. The balance includes interest earnings and may be withdrawn upon leaving the plan with a sixty-day notice. At the termination of the joint powers agreement and after all claims have been settled, any excess or deficit will be divided among the districts in accordance with its governing documents.

12. CONTINGENCY

Litigation

In the ordinary course of operations, the District is subject to other claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, other than the matter discussed above, will not materially affect its financial condition.

13. PRIOR PERIOD ADJUSTMENT

The prior period adjustment is to adjust expenditures of the Capital Projects Fund which were wrongly paid by the General Fund. The adjustments were as follows:

		Prior Period Adjustments			_	
Description	Fund Balance, as previously reported at June 30, 2020		Cash ar	nd Investments		id balance, as I at June 30, 2020
Fund Financial Statements: General Fund Capital Projects Fund	\$	9,694,059 897,649	\$	(15,624) 15,624	\$	9,678,435 913,273
Total Governmental Funds	\$	10,591,708	\$		\$	10,591,708

Notes to Basic Financial Statements For the year ended June 30, 2021

14. SUBSEQUENT EVENT

On July 1, 2021, the District entered into a lease agreement with Municipal Finance Corporation in the amount of \$3,825,000 at an interest rate of 2.9%, for the purpose of enabling the District to finance the acquisition of property located at 1415 N. Carolan Avenue in the City of Burlingame, California. Principal and interest payments of \$318,094 are due July 29, 2022, through July 29, 2036.

percentage of covered payroll	53.51%	77.82%	65.47%	106.40%	131.37%	108.20%	97.54%
Plan fiduciary net position as a percentage of the							
total pension liability	84.46%	88.46%	89.96%	87.49%	83.25%	87.53%	88.88%

Note to Schedule:

Changes of assumptions:

In 2018, there were changes in assumptions primarily from adjusting the assumed investment return, price inflation, and general wage increase downward, modifying the mortality assumption, and adding a projection scale to reflect gradual year-to-year increase in mortality that is expected to occur in the future

In 2020, there were changes in assumptions resulted mainly from downward adjustments to the assumed investment rate, price inflation, and general wage increases.

In 2021, changes resulted mainly from changes in demographic assumptions based on results from the latest Triennial Experience Study

B. Schedule of Contributions - Last 10 Years*

Fiscal Year	2021	2020	2019	2018	2017	2016	2015
Contractually required contribution (actuarially							
determined)	\$ 281,349	\$ 282,989	\$ 466,391	\$ 467,435	\$ 572,799	\$ 541,053	\$ 522,893
Contribution in relation to the actuarially							
determined contributions	(281,349)	(282,989)	(466,391)	(467,435)	(822,799)	(2,051,482)	(522,893)
contribution deficiency (excess)	\$ -	\$ -	\$ -	\$ -	\$ (250,000)	\$ (1,510,429)	\$ -
Covered payroll	\$ 2,249,212	\$ 2,255,787	\$1,900,138	\$1,939,368	\$1,899,298	\$ 1,736,147	\$1,409,518
Contributions as a percentage of covered payroll	12.51%	12.55%	24.55%	24.10%	43.32%	118.16%	37.10%
Note to Schedule:

In fiscal year 2015-2016, the San Mateo County Mosquito & Vector Control District (SMCM&VCD) contributed \$1,510,429 more than its Actuarially Determined Contribution. In fiscal year 2016-2017, SMCM&VCD contributed \$250,000 more than its Actuarially Determined Contribution.

Methods and assumptions used to determine contributions:

Valuation Date
Actuarial Cost Method
Amortization Method
Amortization Period
Amortization Period
UAAL as of June 30, 2008, is amortized over a closed 15-year period ending June 30, 2023. Subsequent changes in the UAAL are amortized over separate closed 15-year layers which are determined annually

Asset Valuation Method
5-year smoothed recognition of asset gains and losses (determined as the difference of the actual fair value to the expected fair value), which cannot vary more than 20% from the fair value.

Inflation
Payroll Growth
3.00% annual increases

Investment Rate of Return 6.75%

^{*-}Fiscal year 2015 was the 1st year of implementation

^{* -} Fiscal year 2015 was the 1st year of implementation

Source: Controller's Office - County of San Mateo, California

Although the District's services encompass a portion of San Mateo County, the amounts presented include the entire County's property taxes.

Notes:

indebtedness approved by voters prior to July 1, 1978. Proposition 13 allows each county to levy a maximum that notwithstanding any other law, local agencies may not levy property taxes except to pay debt service on Legislation enacted to implement Article XIIIA (Statutes of 1978, Chapter 922, as amended) which provide 1 On June 6, 1978, California voters approved a constitutional amendment to Article XIIIA of the Califonria tax of \$1 per \$100 of full cash value. Full cash value is equivalent to assessed value pursuant to Statutes of Constitution, commonly known as Proposition 13, that limits the tax power of California public agencies. 1978, Senate Bill 1656.

² These overlapping rates are in addition to the County rate, but only apply to taxpayers within the borders of the local special districts, schools, and cities that lie within the County.

³ Data includes retroactive revisions based on corrections to the categorization and inclusio n of certain property tax rates.

Source: Assessor's Office - County of San Mateo California

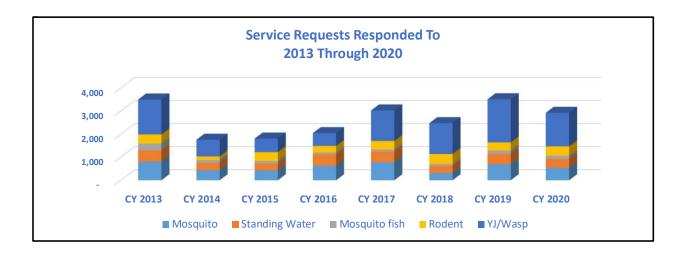

Notes:

- 1 Article XIIIA, added to the California Constitutionby Proposition 13 in 1978, fixed the base for valuaton of property that is subject to taxes at the full cash value that appeared on the Assessors 1975-76 assessment roll. Thereafter, full cash balue can be increased to reflect:
- a) annual intlation up to 2%,
- b) current market value at time of ownership change, and
 - c) market value for new construction.
- 2 Estimated actual value of taxable property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.
